

Do you spend more time managing personalities than projects?

Level 8 Teams provides a proven, people-focused approach that quickly turns under-performing teams into brilliant, inspired collaborators who accelerate growth and innovation.

## Building powerful teams is our passion.

It's hard to think strategically when work is overwhelming. This is why Level 8 Teams has developed a process that minimizes disruption while maximizing your results.

We **consult** with leadership to determine the areas of focus, create a roadmap for engagement, and align on deliverables and desired outcomes.

Team members complete the online Instinctive Drives **assessment** and receive a personalized confidential debrief. They also gain access to the Interactive I.D. Experience.

Themes that emerge from team debriefs are analyzed and presented in a report that provides leadership with **insights** to help leverage your best, and manage the rest.

During the live, half-day Level 8 Teams **workshop**, teams will discuss their group and leadership styles and participate in experiential exercises.

Level 8 Teams provides unique **follow-up** tools to fully integrate the I.D. System with your team culture. Online assessments provide an understanding of the current strengths and vulnerabilities of your team, and the leadership report will include exercises to address areas of improvement.

## The I.D. System™ difference

Instinctive Drives (I.D.™) define a person's natural instincts, including why people do what they do and what **motivates** each person.

Using the results of a simple online assessment, Level 8 Teams will create **customized** strategies and resources that leverage the unique strengths and address the vulnerabilities of your team.

Unlike other skill assessments that address behaviors, the I.D. System gets to the **core** of each individual, creating results that are both immediate and lasting.

On a scale of 1-10, where is your team currently?

On a Level 8 'Power Team' your Leader & Team are **Aware, Aligned, Engaged, Connected, & Trust** for maximum output.

Start Your Journey Today.
